Photography

Designing

Music

Reading

CAREER PROFILE

I am a skilled software engineer with proficiency in multiple programming languages, including C, C++, Python, Java, MYSQL and Flutter. In addition to my programming skills, I possess knowledge of various tools and technologies that support the software development lifecycle. Currently with 11 months of internship experience at NetWeb Software, I have gained valuable hands-on experience and honed my skills in a professional setting. Furthermore, I am well-versed in utilizing project management tools such as Jira and Confluence. I am eager to apply my skills and knowledge gained during my internship to tackle new challenges and continue to grow as a software engineer.

EXPERIENCES

Software Engineer 2023 - Present
NetWeb Software Pvt. Ltd.

Developed and maintained software applications using Java, Spring Boot, Scala, React.js, Git, Agile Application Development, REST APIs, and Tortoise SVN.

Software Engineer (Intern) 2022 - 2023
NetWeb Software Pvt. Ltd.

Developed and maintained software applications using Java, Spring Boot, Scala, React.js, Git, Agile Application Development, REST APIs, and Tortoise SVN.

CERTIFICATIONS

NVIDIA Jetson AI Specialist Certificate Certificate
Learn to Code with Python 3 Certificate

PROJECTS

- Real-Time Face Recognition from Multiple Camera

The system will use the Dlib library to detect and recognize faces. Dlib is a C++ library with Python bindings that provides a number of tools for computer vision, including face detection and recognition.

- Real-Time Indian License Plate Recognition

This repository is of a project named real-time indian license plate detection and recognition system. The source code of the repository implemented on Jetson Nano reached 40 FPS.

SKILLS

Platforms	Windows, Linux, Mac
Programming Languages	Python, Java, C/ C++, Scala, SQL, Dart, Go
Scripting Languages	Javascript, PHP, R, Bash, VBA
Frameworks	Express, Django, Laravel, Spring, Angular, React, Vue
Database	Oracle, MySQL, MongoDB
DevOps	Git, Maven, Jenkins, Docker, Selenium, Gradle
Web Services	RESTful APIs,
Web Servers	Apache HTTP Server, Apache Tomcat, NGINX, NodeJS
Cloud Computing	DigitalOcean, Linode, AWS, Azure, Hostinger
Cloud Platforms	Jira, Confluence, Vercel
Tools	JMeter, Visual Studio, Eclipse
